

Core competence

- Data science Training
- Machine Learning Training
- Deep Learning Training
- Computer Vision Training
- NLP Training
- Data Analytics Training

About Sentiligent Academy

- Sentiligent Academy is focused towards AI training for corporate to upskill their teams and make it easier for organizations and individuals to deliver quality software in AI
- We want to help corporates to be more effective by adopting best practices and be more confident by deeply understanding the concepts, advantages and limitations of AI
- Intelligent AI Training provider
- Training & R&D focusing on cutting edge technologies along with consulting in ML & Deep Learning
- AI Product Development training

Why Sentiligent Academy?

- “*Learning By Doing*” approach.
- We provide **state-of-the art AI Infrastructure** for the training.
- A dedicated & **highly talented trainers in AI** with 100+ years of industry experience
- Cost-Effective (Reduce the training cost by 2x)

Mission

Mission to create AI Center of Excellence & push the boundaries of the technology to help individuals & companies to discover, learn & adopt the AI Technologies.

Vision

To develop AI-Hub in the world

LEARNING WORKSHOPS

- Engaged Training
 - Tools
 - Practices
 - AI mindset
 - AI Core values
 - Fun learning AI
 - Customize training as per industry requirements
- AI Technologies
 - Machine Learning (ML)
 - Convolutional Neural Network (CNN)
 - Recurrent Neural Network (RNN)
 - Computer Vision
 - NLP & NLU
 - Data preparation tools and techniques
 - Microservices
 - DevOps
 - Big-Data
 - Cloud Architecture
 - AI Hardware Accelerators
- Hands-on training
 - Solving Real-world Problem
 - Provide necessary AI Infrastructure
 - Work with cloud technology stack
 - Workshop training model
 - Customized training for your environment
- AI Ethics & Data Privacy policies
 - Data Security Compliances & measures
 - Data Management Training
 - Data Governance
- ML Model life cycle development
 - Continuous ML model evaluation
 - Result analysis and ML model retraining
 - ML Model Governance
 - How to speed-up the model development & deployment process
- AI Productionize Training Capabilities
 - AI Strategy & Product Development
 - Easy deployment using Restful APIs
 - Micro-architecture services
 - Model deployment
 - Long term support

SENTILIGENT ACADEMY UNIQUE FEATURES

- Proprietary Data Preparation, labelling & management tools
- AI Sales & Marketing Strategies development
- Research oriented approach

SENTILIGENT ACADEMY TRAINERS
